Use of Technology in the Classroom

In the age of digital technology, it is essential to embrace the fresh, innovative classroom and teaching techniques available today. Leveraging these technological advances within the classroom can significantly enhance the learning experience for students, making it more engaging and rewarding.

The colleges should be more strict about ensuring student attendance in class

Teaching aid must be added. Research facility must be added.

Proper infrastructure should be provided to carry out research programs and mechanisms for purchase research items must be Hassel free.

Much more infrastructure and up to date laboratory necessary

By building more proper infrastructure

It is alright

Next to better

Should be given projector, laptop and printer in every department. We didn't take ICT Class due to lack of projector. Should be arranged a common and central laboratory for research work.

Teachers must be get relieved from clerical activities.

Science Laboratory should be more enriched

The research work for the project should be given proper guidance and encouragement so that the students can do well on their own and separate classes should be arranged for weaker students.

ICT based classrooms needed, Library should be vast and easily accessed by the students and research oriented environment should be made.

Resources should be made available.

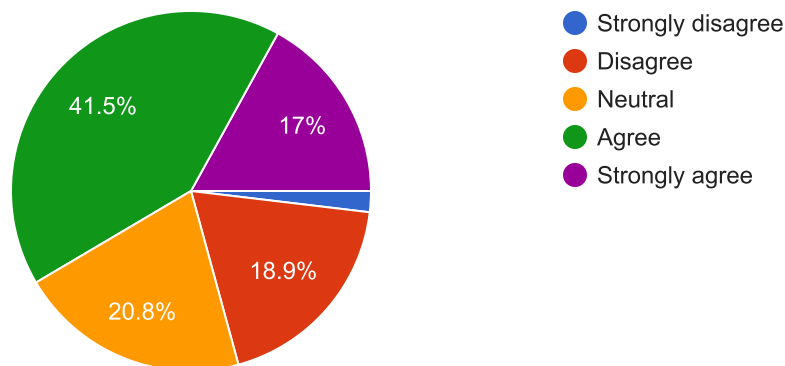

The building of the college campus needs to be increased and the cooperation of the opening authorities is absolutely necessary.

It is ok

Very good

Must be increased the number of class rooms immediately. Laboratory infrastructure should be improved. Reagents and instruments should be purchased for availability. Parking facilities are not sufficient for students and teachers.

More class rooms are needed and the playground must be well maintained.

More class rooms are needed

Improving the quality of faculty in higher education in college is a complex issue that requires a multi-faceted approach. Some steps that can be taken to improve the quality of faculty in higher education in college include:

Encouraging and supporting faculty to pursue advanced degrees and research opportunities.  
Providing ongoing professional development opportunities for faculty.  
Encouraging collaboration and knowledge sharing among faculty members.  
Ensuring that faculty are recruited based on their qualifications and merit, rather than political or other considerations.  
Providing adequate resources and facilities to support research and teaching activities.  
Encouraging faculty to engage in community outreach and service activities.  
Encouraging and supporting interdisciplinary collaborations and research.  
Ensuring that faculty are evaluated based on their teaching, research, and service activities, and that evaluations are fair and transparent.  
These are just a few of the steps that can be taken to improve the quality of faculty in higher education in college. It is important to recognize that improving the quality of faculty will require sustained effort and a commitment to ongoing improvement.

Efficient non teaching staffs are required.

It is ok no

Nothing

Library development

Teachers recruitment

I have no issues

Good arrengement in hostel

yes. College Garden

All right

I highly recommend that at least one of NSS & NCC must have to make mandatory for students.

There should have some classes especially for 1st and 2nd year students on Ethics (Values, Attitudes, emotional intelligence, solving practical mental dilemmas etc) & sex-education.

Our College, if it decides to provide subject specific classes for optional preparation of UPSC and WBCS , it will be of great help for aspirants.

However, I feel grateful for what I got & for what I am getting from there. Thank you sir, Thank you mam.

There is a social perception within and outside of our college that those who take admission in our college are some sort of low meritorious candidates. I accept the fact that their Higher Secondary marks are not so appealing for various reasons but some may had excellent marks at their Madhyamik level. Building a narrative that helps a student learn and concentrate on learning - I shall really appreciate that focus.

Our college is very good but it still need some improvement in sanitization and infrastructure . I wish we could have a permanent gym trainer and could move our gym inside the campus so that girls can also practice . Our juniors need to be more active in cultural activities . Previously I felt that there is a lack of students response in extra curricular activities . This need to be improved.

Apart from that i think it would be better if we have a parmanent computer teacher to provide computer education, may be college authority can consider lunching some basic and deploma course in computer in collaboration with Vidyasagar University
