Policy for making Narajole Raj College campus Green, sustainable and eco-friendly-

Date-16.11.2019

The Green Club Committee of Narajole Raj College strives to promote sustainability on daily basis. It aims to reduce environmental impact by promoting eco-friendly practices. This includes conservation of resources like energy and water, waste management, green transportation, biodiversity conservation, and sustainable food options. The committee educates and engages the campus community in environmental awareness, advocates some sustainable policies, and collaborates with local stakeholders, monitoring progress, hosting green events. Ultimately, the goal is to create a greener, more sustainable campus that serves as a model for responsible eco-friendly educational institution in Paschim Medinipur district.

On 17th November, 2019, the Green Club Committee resolved some proposal for the planning of next five years' i.e,(2019-2020 to 2023-2024) and send it to the Governing Body for their kind permission.

The matter to be focused for the next five years are considered as under-

1. Inauguration of E-Waste Management system
2. Renovation of Rain Water harvesting plant
3. Installation of additional Solar panels
4. Modification of Green Campus
5. Making at least two Chemical Waste pits near chemistry laboratory
6. Installation of Air Quality Analyzer and Sound Quality Analyzer
7. Construction of Pedestral friendly pathway in different areas of campus for beautification and making the campus more contemporaneous
8. Making the campus strictly plastic free
9. Observing of no vehicle day in the campus as much as possible at least strictly once in a week.
10. Making the arboretum more and more rich

11. Plantation in collaboration with NSS (Unit-I and Unit-II) in different local areas and within the campus
12. Regular maintenance of Charak Udyan (our medicinal plant garden)
13. Organizing different Awareness Programmes in different local schools and local areas in collaboration with Extension Services Sub-Committee for area development through students and local people
14. Formation of nests in different areas of college campus for the conservation of birds
15. Gradual replacement of neon light and installation of LED light in classrooms and different areas of college.
16. Arrangement of workshops by the college to raise awareness among the students about waste segregation and disposal in designated recycle bin specified for different kind of waste.
17. Arrangement of different awareness programmes among our students specially for new comers would be proposed whenever it needs in vivid themes to spread out greenery thinking among the students of our college and to serve our college as a role model for other educational institutions.
18. Making a collaboration in near future with any of our neighbour Gram Panchayat Who would have a waste disposal machinery system. Proposal should be made in this manner that our different wastes will be taken by that Gram Panchayat and disposed properly by their system.
19. Continuation of our Vermi-composting system inside the campus and in our adopted village and properly donate the end products that is vermicompost to the villagers through nearby Gram Panchayat.

**Proceedings of the meeting of the Green Club Committee held on
30.11.2019 (Saturday) in the chamber of Vice-Principal**

A meeting of Green Club, Narajole Raj College was held on 30.11.2019 at 11.00 a.m in the chamber of Vice-Principal. Dr. Ranajit Kumar Khalua, Vice-Principal, Narajole Raj College was on chair. All the members of the Green Club had attended the meeting. Following discussions and decisions were taken in the meeting:

1. The proceedings of the last meeting were read and confirmed in toto.
2. Members expressed their concerned for making the Narajole Raj College campus more and more green and contemporaneous
3. Resolved by the support of all members that different programmes/activities would be held in different areas inside and outside the campus whenever it needed in vivid things according to necessities.
4. It was decided that Prof. Arpita Chakraborty, convenor, Green Club would shoulder the responsibility of organizing the activities/ seminars/workshops.
5. No other business left; the meeting ended with paying reciprocal thanks to the chair.

Policy making on Green Audit purpose for the current and upcoming two session-

On 31.10.2022, with the permission of our Governing body, A Green Audit Cell is formed. The aim is to form this Cell to conduct and evaluate the actual environmental scenario at the institution / college campus. The green audit aims to analyse environmental practices within and outside the college campuses, which will have an impact on the eco-friendly atmosphere. Green audit can be defined as systematic identification, quantification, recording, reporting and analysis of components of college campus.

On 3rd November, 2022, the Green Audit Committee resolved some proposal for the planning of next two years' i.e., from 2022 to 2024 and send it to the Governing Body for their kind permission.

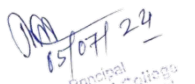

1. We have to procure green audit and energy audit in our college and ISO certification from a reputed auditing agency.
2. We have to procure E-Waste management system and we have to contract with any reputed E-Waste Management System Consultancy for collection of E-Waste and its proper disposal.
3. We have to follow some advisories for power saving safety and security in our college, such as-
 - i) We have to turn off the lights and fans when 'Not in Use', especially during lunch break and closing hours.
 - ii) We have to turn off Computers, Air conditioning machines when 'Not in Use'
 - iii) We have to use day light in Solar hours as much as possible
 - iv) We have to remove unwanted lights near windows, corners
 - v) We have to turn off all electrical goods and electronic goods in science laboratories, library, office etc. when 'Not in Use'
 - vi) We should not block the air flow around windows, so that use of fans could be reduced

	Department of Botany in collaboration with the Green Club, A National level webinar entitled 'Environmental Issues in 21 st century'	also learned about the way out to overcome climate change. While climate change is irrefutable, science also tells us that it is still possible to stem its tide. It will require fundamental changes in all aspects of society - how we grow food, use land, transport goods, and power our economies.	
7.	When the college opened after lockdown during Covid pandemic, we observed our college campus and surrounding area were full of <i>Parthenium</i> as the college closed due to lockdown trespassers were limited in that locality which allowed the <i>Parthenium</i> to grow and polluted the entire atmosphere. <i>Parthenium</i> is an exotic plant which was invaded in our country. The spores of <i>Parthenium</i> usually create respiratory trouble and skin allergy in human body. Therefore, the herb is injurious and this is why the eradication of the <i>Parthenium</i> programme had been taken.	We, the members of Green Club, have discussed the issue with the NSS (unit I and II), teachers and students of botany department. We decided to eradicate the herb <i>Parthenium</i> from our college campus and the surrounding area manually with the help of the said members under guidance of Mr.Pashupati Maity (gardener). We fixed the date on 29.6.2022. We planned to purchase gloves, masks and head cap sufficiently for security of the members.	Complied 
8.	Keeping in mind the world Plastic free day on 3.7.2022, a proposal was given to observe the day inside the campus through cleaning it vigorously by teachers and students jointly.	The members of Green Club were arranged the programme on 4.7.2022 as 3.7.2022 was a Sunday i.e. college holiday. Students were enthusiastically organised and participated the cleaning programme and successfully completed it. Special focus was given firstly, to clean the weeds from our Charak Udyan (medicinal plants garden).	Complied

Memo No.

Date

		<p>Cleaning process was done also through swiping the campus and make the campus plastic free. Awareness campaigning was also done among the students especially new comers against the use of plastic here and there.</p>	
<p>9.</p>	<p>Waste management or waste disposal includes the processes and actions required to manage waste from its inception to its final disposal. This includes the collection, transport, treatment, and disposal of waste, together with monitoring and regulation of the waste management process and waste-related laws, technologies, and economic mechanisms.</p> <p>Waste can be solid, liquid, or gaseous and each type have different methods of disposal and management.</p> <p>The aim of waste management is to reduce the dangerous effects of such waste on the environment and human health. One of the ways to put that plan into action is through the 3 ways of waste management — Reduce, Reuse, Recycle. Keeping all these in mind, a proposal was made to arrange of different hands on training</p>	<p>All these materials should be thrown separately because they are recyclable in nature and can be recycled while making new products which reduces the burden on the resources and also saves water and energy used in the manufacturing processes. Note that although the wastes such as TV, computers, computer accessories, etc. are dry in nature they are not to be thrown in the blue dustbin but handed over to the E-waste collection centres. In our Institution, we have introduced in the session 2022-2023 the different coloured dustbins in different places within the campus and took initiative of awareness programmes among the students specially, new comers, tried heartily to make them acquainted about the proper uses of coloured dustbins and different processes of waste remediation including bioremediation. Hence forth, it is expected from our future generation that they would use the said coloured dustbins properly.</p> <p>The features of red dustbins are:</p> <ul style="list-style-type: none"> • These specific trash cans are used to dispose of non-biodegradable rubbish. • Because these wastes cannot be recycled, red trash cans are also known 	<p>Complied</p>

		<p>For e-waste disposal and its management our institution makes a MoU contract with Hulladek Recycling Private Limited in the session 2023-2024. It is decided in between us that they will take it out our e-waste from college campus for proper disposition. Toxic/hazardous/heavy metal wastes from the chemical laboratory are discharged into a 40-foot-deep underground double-layered pit within the campus. Waste materials like papers, and exercise books are collected and sold out to the vendors. Making of compost of Food waste and all kinds of organic waste is under process. In this context, two hands on training were arranged on 8.12.2022 and 8.1.2024.</p>	
10.	<p>As before, a proposal would be given to college authority to run our two vermi-composting plant properly.</p>	<p>Considering the necessity, our authority granted to carry out the plant properly and it was decided a bulk amount of the vermi-compost would be given to local poor villagers through gram panchayat</p>	<p>Complied</p>
11.	<p>As before, a proposal was given to college authority for the formation of nests in our college premises for conservation of birds up to a certain limit.</p>	<p>Considering the necessity, our authority granted to carry out the proposal properly.</p>	<p>Complied</p>

Action plan beyond the campus-

Sl. No	Plan of Action	Action taken	Compliance
1.	On 19.11.2022 people observe the day as World Toilet Day. After Covid pandemic scenario it is essential for the people specially village people to maintain health and hygiene properly. Therefore, a planning was done to do a programme in a village primary school and to train the students about the health and hygiene to difficult situation.	We had made contact with the nearby primary school namely Harirajpur Primary School. On discussion with the school authority we hold a discussion on the topic, "Discussion on Health, Hygiene and Sanitation Practices in Post Covid Times". Our resource person was Prof. Sanjay Kumar Datta, State Aided College Teacher, department of Botany, Narajole Raj College. Prof. Sanjoy Kumar Datta is serving as a State Aided College Teacher in the department of Botany, Narajole Raj College since 1997. He is a very good teacher and orator and popular among the students. His qualification is M.Sc, B.Ed.	Complied
2.	A proposal was given for an enlistment of Medicinal Plants present in Narajole Raj Bari Campus and adjoining areas, as the area is rich in different biological diversity, would be held on 12 th August, 2022., organized in collaboration with Extension Services Sub-Committee, NRC.	There is a large biodiversity of plants presents in the said areas. Most of them are used traditionally in different areas to cure different ailments of human and other animals. We have taken the programme to enlist those plants, so that, they can be used for the benefit of the local people. Plan of Work- On that day in college campus, most of the members of Green Club and Extension Services Sub-Committee with some students of Biological Science assembled in College Gate and reached in front of Narajole Raj Bari at around 11.30am. Dr. Arpita Chakraborty, Convenor of Green Club, Dr. Uttam Kumar Kanp, member of Green Club led from the front in this survey work. At first, we observed carefully the whole	Complied

Non Conformities Raised

0 Minor/Major Non-conformance identified in the Stage 1 audit, details of Non Conformance in F50

Please respond by using your own corrective action form and include the root cause analysis with systemic corrective action. Failure to include root cause analysis with systemic corrective action will result in your responses being rejected by Lead Auditor

Team Leader Declaration (Tick or cross Each Column as per applicability)	
√	Auditing is based on a sampling process of the available information
√	Audit is combined, joint or integrated;
√	The effectiveness of corrective actions taken regarding previously identified
√	nonconformities has verified
√	outcomes are effective and complying.
√	The internal audit and management review process are effective and complying with the requirements.
√	The scope of certification is appropriate.
√	The capability of the management system to meet applicable requirements and expected
√	The audit objectives has been fulfilled and achieved.
RECOMMENDATION	
√	Recommended Proceeding With Stage 2 (within 60 days from this audit date)
×	Recommend not proceeding to stage 2 until audit evidence has been submitted to AQC showing that the concerns raised by the auditor (s) have been rectified. A date for stage 2 will then be agreed.
×	Recommend not proceeding without a further stage 1 Audit due to the severity of the concerns raised by the audit team

Brief about the organization	<p>A noble effort to further higher education amongst aspiring rural students bogged down by infrastructural and communication drawbacks, the curse of emerging modern India, resulted in the humble beginnings of Narajole Raj College, way back, on September 12, 1966. Located in remote Paschim Medinipur (then undivided Midnapore) district of West Bengal, The College was the dream child of a group of magnanimous minds, led by Rani Anjali Khan (of renowned Khan Dynasty, erstwhile rulers of the area and contributors to the Indian freedom movement), renowned political activist, Shri Rajanikanta Dolai and social activist, Shri Radhayashyam Mondal. The trio were actively supported and helped in their mission by the people of the locality. Srimati Khan leased out her palace in Narajole for the purpose of running the college. The college began functioning with 6 teachers, 5 non-teaching staff and 30 students. Initially, the college offered 3 years Undergraduate Degree courses (General) in 6 subjects, and the Pre University course under Calcutta University. We respectfully remember our first Principal, Prof. Sital Bhattacharya, who meticulously looked into all legal and governmental issues that would ensure the smooth functioning of the Institution in the years ahead.</p> <p>When reminiscing about its early days, one bow in respect to those teachers of Mahendra Academy Boys' High School, Narajole, who willingly accepted the burden of taking classes at the college which was suffering from dearth of teachers (the</p>

	economic condition of the college was not such that it was capable of hiring part time teachers).In the chequered history of the College one major landmark was the introduction of B. Sc. in Pure Science (General) in 1983. After de-notification by the then affiliating body, the University of Calcutta, in 1987, was shifted over to the recently established Vidyasagar University (Midnapore) as per Government order. Another major breakthrough in the history of the College came in 1991, with the College offering Honours Courses in Bengali and History, and B.Sc. in the Biological Science (General).The college in turn donated land to the government so that a Boys' Hostel for the weaker section of the community could be constructed. In 2005, the subjects under the discipline of humanities were shifted to the new campus.
Purpose of Audit	To verify the implementation of the Environmental Management System as per the Standards Requirement, verification of records for the conformity of the implementation.

Stage 2 Audit Report	

√	The internal audit and management review process are effective and complying with the requirements.
√	The scope of certification is appropriate.
√	The capability of the management system to meet applicable requirements and expected
√	The audit objectives has been fulfilled and achieved.

Recommendation:

√	The EMS complies with the requirements of the reference standard: Congratulations, on the basis of the above summary, Lead Auditor is pleased to put forward a recommendation for Issuance of Certificate. The organization can use the AQC Mark
×	The EMS complies with the requirements of the reference standard with exception of minor NC: Congratulations, Team Leader is pleased to put forward a recommendation for Issuance of the certificate of Organization upon off-site verification of closure of all minor NC within 60 days from the date of Stage 2 audit. Responses to the non-conformances should be submitted to AQC and must include supporting evidence of closure to allow for off-site verification. In responding to the non-conformances, the organization should consider the root cause of the non-conformance and the potential for related issues in other parts of system. If all non-conformances are not closed within 60 days, a full reassessment may be required.
×	Evidence of major non conformities: Organization is not recommended for Issuance of Certificate and at this time. Follow-up audit will be scheduled to allow for on-site verification and closure of all issues within 60 days from the date of Stage 2. Once all non-conformances are closed, the recommendation for Issuance of certification may recommended. If all non-conformances are not closed within 60 days, a full reassessment may be required.
×	Not Recommended: Organization is not recommended for Issuance of certificate at this time. Full Stage 2 audit is required as the organisation has not implemented the system and process at pace. .

Summary report of Asis Acharya programme-

Due to Covid pandemic situation the schools, colleges were remain closed for a long period for safety and security of all concerned. The students were taught through online mode. First time in their life, they will have to face online exam. So, in this context, Green Club of our college arranged webinar on 6th May, 2020 on “

” as per advice of Dr. Anupam Parua, Principal of college. A brief report is enumerated below: -

Rationale of the webinar- As advised by the Principal, Green Club of college conducted the webinar on 06.05.2020 to create awareness amongst the students as they will appear first time online examination without getting any guidance of teachers. The objective of the webinar was to create awareness how to save lives from covid pandemic situation and what precautionary measures are to be followed by individual members to serve themselves and to appear first time online examination without taking any stress, tension, and fear.

Plan of work- Respected members decided to invite a resource person preferably a psychiatrist, having profound knowledge and experience in medical science and psychology and who can counsel us how we can safeguard ourselves from different diseases including covid. As a result, we invited Dr. Asis Acharya attached to Midnapur Medical College and Hospital.

Schedule of the seminar- The members of Green Club decided to hold the webinar on 06.05.2020 after discussion with Dr. Acharya.

Brief Bio-data of the resource person- Qualification of Dr. Acharya is MBBS, DPM. He was previously attached to Midnapur Medical College and Hospital and Pavlov Hospital, Kolkata.

Outcome of the webinar- Dr. Acharya in his speech highlighted the following issues in detail.

1. Firstly, all of us have to be steady in this pandemic.
2. All students have to face their first time online exam steadily and freely as their other activities.
3. Every teacher should mentally stand next to the students like a friend, philosopher and guide.

Students' feedback- The students became very happy and expressed thanks to resource person (Dr. Acharya), principal and other teachers who arranged the webinar and advised them.

Asis Acharya

Summary report of national seminar-

Due to Covid pandemic situation the schools, colleges were remain closed for a long period for safety and security of all concerned. The students were taught through online mode. Green Club of our college arranged a national level webinar on 16th June,2020 on “Covid 19 Pandemic, A Battle We have to Win ” as per advice of Dr. Anupam Parua, Principal of college. A brief report is enumerated below: -

Rationale of the webinar- As advised by the Principal, Green Club of college conducted the webinar on 16.06.2020 to create awareness amongst the students, faculties, and members of the other colleges too on the following issues: -

1. Three different topics were discussed in the webinar by three resource persons based on the present pandemic conditions.

The objective of the webinar was to create awareness how to save lives from covid pandemic situation and what precautionary measures are to be followed by individual members to save themselves.

Plan of work- Three different topics were discussed in the seminar by three resources persons

4. Topic A) – “How to Combat Against Covid-19”

Resource person – Dr. Kalimujjaman Molla

Resident: MD (Medicine), Department of Medicine,

Midnapore Medical College & Hospital

Topic B) – “Significance of Microbiological Knowledge and Awareness in 21st Century with Special Reference to Covid-19”

Resource Person - Dr. Pradeep Kumar Das Mohapatra

(M.Sc., PhD, FSAB), Associate Professor & Head,

Department of Microbiology &

Environmental Conservation Centre, Raigunj University

Uttar Dinajpur, Rajgunj – 733134

Topic C) – “Covid-19 and its Impact on Environment”

Resource Person - Dr. Prasanjit Mukherjee

(PhD, DSc, FBS, FEHT, FAPT)

HOD, Botany, KKM College, Pakur, Jharkhand (India)

Councilor, Indian Botanical Society (IBS)

Executive Editor, The Biobrio

Principal
Narajole Raj College
Narajole, Pin-721 211

The target group of the seminar was faculties and students of our and other colleges. Technology Committee of the College was extend all support to smooth conduct of the National Seminar.

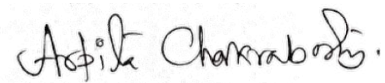

Schedule of the seminar- The members of Green Club decided to hold the webinar on 16.06.2020 after discussion with the resource persons.

Outcome of the webinar- Three resource persons in their speech highlighted the present scenario of pandemic situation, how to combat the stage by each of us, how to save civilization scientifically and fearlessly.

Students' feedback- The students became very happy and expressed thanks to resource persons, principal and other teachers who arranged the webinar and advised them.

Dated: 16.06.2020

10:00 AM to 10:15 AM: Joining the webinar through Google Meet app with the link already Provided

INAUGURAL SESSION

10:15 AM to 10:20 AM: Programme will start with 'Vedic Chanting'

Prof. Anustup Chatterjee

HoD, Dept of Sanskrit, Narajole Raj College

10:20 AM to 10:30 AM: Introductory address highlighting about the present pandemic situation

(Prof.) Dr. Anupam Parua

Principal, Narajole Raj College

10:30 AM to 10:40 AM: Welcome Address

Dr. Poulami Adhikary

Assistant Professor, Dept. of Zoology, Narajole Raj College

TECHNICAL SESSION

10:40 AM to 11:10 AM: Discussion on the topic

" HOW TO COMBAT AGAINST COVID 19"

Dr. Kalimujjaman Molla

Resident: MD (Medicine)

Department of Medicine

Midnapore Medical College & Hospital

11:10 AM to 11:50 AM: Discussion on the topic

" SIGNIFICANCE OF MICROBIOLOGICAL KNOWLEDGE AND AWARENESS IN 21ST CENTURY WITH SPECIAL REFERENCE TO COVID-19"

Dr. Pradeep Kr. Das Mohapatra (M.Sc., Ph.D., FSAB)

Associate Professor and Head Department of Microbiology & Director

Environmental Conservation Centre Raiganj University,

Uttar Dinajpur, Raiganj-733134

11:50 AM to 12:15 PM: Discussion on the topic

" COVID -19 AND ITS IMPACT ON ENVIRONMENT"

Dr. Prasanjit Mukherjee (Ph.D., D.Sc., FBS, FEHT, FAPT)

HoD, Botany, KKM College

Pakur, Jharkhand (India)

Councilor, Indian Botanical Society (IBS)

Executive Editor – The Biobrio

Coronavirus and COVID-19:

Strains of SARS-CoV-2:

- It's normal for a virus to change, or mutate, as it infects people. A Chinese study of 103 COVID-19 cases suggests the virus that causes it has done just that. They found two strains, which they named L and S. The S type is older, but the L type was more common in early stages of the outbreak.

How long will the coronavirus last?

- It's too soon to tell how long the pandemic will continue. It depends on many things, including researchers' work to learn more about the virus, their search for a treatment and a vaccine, and the public's efforts to slow the spread.
- More than 100 vaccine candidates are in various stages of development and testing. This process usually takes years. Researchers are speeding it up as much as they can, but it still might take time to find a vaccine that works and is safe.

Can coronavirus be transmitted through groceries, packages, or food?

- You're much more likely to get COVID-19 from another person than from packages, groceries, or food. If you're in a high-risk group, stay home and use a delivery service. Have them leave the items outside your front door, if you can. If you do your own shopping, try to stay at least 6 feet away from other shoppers. That isn't always possible, so wear a cloth face mask.

Summary report of an Initiative to normalize college campus life-

Due to Covid pandemic situation the schools, colleges were remain closed for a long period of about two and half years duration for safety and security of all concerned. The students were taught through online mode. Green Club of our college arranged webinar on 15th November,2021 on “An initiative to normalize college campus life” as per advice of Dr. Anupam Parua, Principal of college. A brief report is enumerated below: -

Rationale of the webinar- As advised by the Principal, Green Club of college conducted the webinar on 15.11.2021 to create awareness amongst the students, faculties and members of the staff about the following: -

- a) What type of initiative can be taken in the class rooms, Principal’s cabin, office rooms, departmental rooms, laboratory rooms including furniture and fixtures, instruments etc. to make the rooms clean and free from germs.
- b) What type of initiative can be taken to make the college campus and adjoining area clean and germ free.

The objective of the webinar was to create awareness how to save lives from covid pandemic situation and what precautionary measures are to be followed by individual members to serve themselves.

Plan of work- Respected members decided to invite a resource person preferably a doctor, having profound knowledge and experience in medical science and who can counsel us how we can safeguard ourselves from different diseases including covid. As a result, we invited Dr. Kalimujjaman Molla attached to Midnapur Medical College and Hospital.

Schedule of the seminar- The members of Green Club decided to hold the webinar on 15.11.2021 after discussion with Dr.Molla.

Brief Bio-data of the resource person- Qualification of Dr. Molla is MBBS, MD(Medicine) and attached to Midnapur Medical College and Hospital.

Outcome of the webinar- Dr. Molla in his speech highlighted the following issues in detail.

- a) The classrooms, office rooms, teacher’s room, laboratory rooms, Principal’s cabin, departmental staff rooms are to be cleaned with soap water, detartgents very carefully twice in every week. Then the rooms are to be further cleaned simultaneously.

15/11/21
Principal
Harsho Raj College
Norega P.O-751 211

- b) All the students, faculty members of the staff and visitors are to clean their hands with soap water and then by sanitizers frequently. The instruments are also to be cleaned by sanitizers. Adequate arrangement for cleaning has to be kept in each department and each room.
- c) Dr. Molla also advised all concerned to keep the campus clean. The campus must be *Parthenium* free also.
- d) He also advised us to take advice of doctor when anybody attacks by fever and other symptoms.

Students' feedback- The students became very happy and expressed thanks to resource person (Dr. Molla), principal and other teachers who arranged the webinar and advised them.

Summary report of Joint forest management in southwest Bengal

Rationale of the webinar- Trees and forests are very important for the long survival of the civilization. They supply oxygen for the living World. On the other hand, deforestation was done to build civilized towns and cities for sake of the interest of the people. That trend still continues. The seminar was organized for the awareness of the people that we have to maintain forest now to make the World a good habitat of the living being.

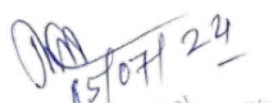

Plan of Work- Members of the Green Club met on 17.11.2021 through online mode to discuss the above issue and decided to organize a webinar. The convenor was interested to contact a resource person to discuss in the seminar with students, faculties, staffs and village people. It was decided in the meeting to organize the seminar within the month.

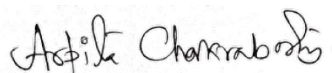

Schedule of the webinar- Dr. Tridib Kumar Sahoo was invited as a resource person and he agreed to deliver a speech on 28.11.2021 through online mode. On that day our technical committee created the link and invited all concern to join. At first, Prof. Arpita Chakraborty, convenor of Green Club introduced the resource person. At 4pm Dr. Tridib Kumar Sahoo started his deliberation. His deliberation was magnificent and ended after one hour. Dr. Tanuka Acharya, HOD, department of Philosophy gave vote of thanks to all dignitaries.

Brief bio-data of the resource person- Dr. Tridib Kumar Sahoo is an eminent professor of botany. He works as an assistant Professor in Tamralipta Mahavidyalaya in the department of botany.

Outcome of the webinar- The webinar was able to make the audience aware about the importance of the green trees and forests, ill effects of deforestation and importance of plantation.

Students' feedback- All the audience particularly the students mesmerized while deliberation was going on. The deliberation was able to make them curious on the issue which was important for their grooming.

Summary report of nutrition and its importance in life

As declared by the Govt. of West Bengal, Narajole Raj College observed students' week from 1st January to 7th January, 2022. Green Club of our college arranged a webinar on 7th January, 2022 on 'awareness and counselling about nutrition and its importance in life'. A brief report is enumerated below: -

Rationale of the webinar- The webinar was conducted to create awareness amongst the students and faculties as also counsel them as to the nutrition and its importance in human life.

Plan of work- The honourable members decided to invite a resource person having profound knowledge in Nutrition science to make aware of the participants and counsel them about the importance of nutrition in day-to-day human-life.

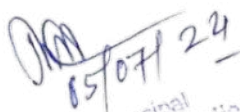

Schedule of the webinar- The members of Green Club decided to hold the webinar on 7th January, 2022 and invited Mrs. Poulami Mandal as speaker.

List and brief bio-data of the speaker- The Green Club invited only Mrs. Poulami Mandal, consultant dietician, former dietician of Peerless Hospital, Kolkata.

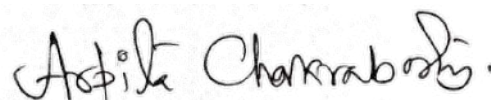

Theme address by Convenor, Green Club- Convenor, Prof. Arpita Chakraborty in her speech highlighted the awareness amongst students and counsel them about the importance of taking nutritious food to maintain good health and habit. She also stressed and advised the students to take Indian Traditional food, in spite of taking fast-food which are now-a-days available in every place, and every corner of the society.

Outcome of the webinar- Mrs. Poulami Mandal, consultant dietician, former dietician of peerless Hospital, Kolkata discussed in detail-what is nutrition, which are the nutritious foods to be taken when the techniques to maintain good health and habit. She also told that costly foods are not always nutritious. Sometimes the low-cost foods which are available in our country are very nutritious to maintain good health and habit.

Students' feedback- The students' become very glad and expressed thanks to the main speaker and others who spoke in the webinar on 7th January, 2022.

World Environment Day Celebration 2022
Celebration on 5th June, 2022 at 10:00 AM

World environment day is celebrated every year by Narajole Raj College on 5th June to raise global awareness to protect nature and the planet earth. There are concerns about the melting of the world's ice, the burning of forests, the turn of the oceans into garbage dumps, the downfall of animal populations, and the presence of microplastics in our air, water, food, and even unborn babies. Environmental activists around the world are also at risk. Our mother earth faces three major planetary emergencies: Humans and wildlife cannot adapt to the rapidly warming climate; The loss of habitat and other factors threaten the extinction of an estimated one million species; We continue to pollute our air, land, and water because of pollution. There are many serious consequences associated with climate change, air pollution, water pollution, waste management, and deforestation. To raise awareness among the student, this year (2022) a National Level Webinar entitled “**Living Sustainably in Harmony with Nature**” was organized by the Department of Botany in collaboration with the Green Club, under the guidance of IQAC, Narajole Raj College, Narajole, Paschim Medinipur. The entire program was organized through google meet due to the COVID-19 pandemic. Students and teachers from all the departments participated and celebrated world environmental day. The program schedule is given below.

PROGRAMME

WORLD ENVIRONMENT DAY

Celebration on 5th June 2022 at 10:00 AM

“Living Sustainability in Harmony with Nature”

ORGANISED BY: Department of Botany, in collaboration with Green Club, under the guidance of IQAC,

Narajole Raj College, Narajole, Paschim Medinipur

“Link Through Google Meet”

10:00AM	Selection of President.
10:05AM	Inaugural Speech by the President: Dr. Ranajit Kumar Khalua, Honourable Vice-Principal, Narajole Raj College.

NARAJOLE RAJ COLLEGE

Summary report of Seven Different Activities Organized by Green Club with other sub-committees/NSS Units, Narajole Raj College.

Rationale of the activities- Green Club of Narajole Raj College was established initially to make the campus green in all aspect and transformed the greenery thinking to the mind of all humans present here too. As a result, the greenish influences can be spread out in the society through the students and staffs also. To make the surrounded community, nearby school, Gram Panchayat clean, green, less toxic, sustainable, our Green Club perform different outdoor programmes every year apart from inside activities.

Plan of Activities- In the period July'2022 to June'2023 our college decided to do as such e activities, the impact of which reflect easily on small aged pupils, adolescent pupils, and others resides in the local area. In these context, the programmes are decided one by one and these are-

1. Observation of World Toilet Day organized in collaboration with NSS Unit-I and NSS Unit-II on 19.11.2022 in Harirajpur Primary School.

2. A Drive for Eradication of *Parthenium* from organized in collaboration with NSS Unit-I and NSS Unit-II held on 29.6.2022.

3. An Enlistment of Medicinal Plants present in Narajole Raj Bari Campus and adjoining areas held on 12th August,2022.,organized in collaboration with Extension Services Sub-Committee,NRC.

4. An Extempore Speech Competition based on Environmental Awareness in Narajole Mahendra Academy (H.S.) organized in collaboration with Extension Services Sub-Committee, NRC, held on 25.11.2022.

5. Plenary Speech on 'Medicinal Value of Local Weeds' in Amarendra Lal Khan Balika Vidyalaya organized in collaboration with Extension Services Sub-Committee, NRC, held on 10.06.2023.

Observation of World Toilet Day organized in collaboration with NSS Unit-I and NSS Unit-II on 19.11.2022 in Harirajpur Primary School.

Summary report

Rationale of the seminar- On 19.11.2022 people observe the day as World Toilet Day. After Covid pandemic scenario it is essential for the people specially village people to maintain health and hygiene properly. Therefore, we took the programme to go in a village primary school and to train the students about the health and hygiene to difficult situation.

Plan of work- We had made contact with the nearby primary school namely Harirajpur Primary School. On discussion with the school authority we hold a discussion on the topic, "Discussion on Health, Hygiene and Sanitation Practices in Post Covid Times". Our resource person was Prof. Sanjay Kumar Datta, State Aided College Teacher, department of Botany, Narajole Raj College.

Schedule of the Seminar- We reached our destination at about 11 O'clock. Most of the members of Green Club, NSS programme officers (Unit I and II), IQAC co-ordinator attended the programme. Total 75 students of different classes attended the deliberation. First of all, convenor of Green Club gave a short and introductory speech. Co-ordinator of IQAC also spoke about speciality of the day. Our resource person spoke on the issue very lucidly. All the little students were attentive with pindrop silence.

Brief bio of speaker- Prof. Sanjoy Kumar Datta is serving as a State Aided College Teacher in the department of Botany, Narajole Raj College since 1997. He is a very good teacher and orator and popular among the students. His qualification is M.Sc, B.Ed.

Outcome of the Seminar- We have observed the World Toilet Day meaningfully. The discussion of the above issue made the students alert about health and hygiene. It will help to make the locality garbage free and clean.

Students' feedback- Students were very much attentive to the deliberation and they asked different questions which were clearly discussed by the resource person.

A Drive for Eradication of *Parthenium* from college campus and adjoining areas organized in collaboration with NSS Unit-I and NSS Unit-II held on 29.6.2022.

Summary report of Parthenium eradication

When the college opened after lockdown during Covid pandemic, we observed our college campus and surrounding area were full of Parthenium as the college closed due to lockdown trespassers were limited in that locality which allowed the Parthenium to grow and polluted the entire atmosphere.

Rationale of the outdoor activity- Parthenium is an exotic plant which was invaded in our country. The spores of Parthenium usually create respiratory trouble and skin allergy in human body. Therefore, the herb is injurious and this is why the eradication of the Parthenium programme had been taken.

Plan of work- We, the members of Green Club, have discussed the issue with the NSS (unit I and II), teachers and students of botany department. We decided to eradicate the herb Parthenium from our college campus and the surrounding area manually with the help of the said members under guidance of Mr.Pashupati Maity (gardener). We fixed the date on 29.6.2022. We planned to purchase gloves, masks and head cap sufficiently for security of the members.

Schedule of the programme- We reached the college campus right at 10 am and considering the security aspect we wore gloves, caps and facial masks. After that all of us started the job by identifying the herb Parthenium and eradicate them. All of us including students involved in the job with great enthusiasm. We finished the job around 2pm.

Outcome of the activity- We observed that the locality was abundantly covered with parthenium plant which is dangerous for human being and grazing animals. After the programme our college campus and surrounding area became almost Parthenium free.

Students' feedback- Students were very happy as they observed the event as a social work. They were enthusiastic asking about Parthenium bound diseases.

An Enlistment of Medicinal Plants present in Narajole Raj Bari Campus and adjoining areas held on 12th August,2022.,organized in collaboration with Extension Services Sub-Committee,NRC.

Rationale of the outdoor activity- There is a large biodiversity of plants presents in the said areas. Most of them are used traditionally in different areas to cure different ailments of human and other animals. We have taken the programme to enlist those plants ,so that, they can be used for the benefit of the local people.

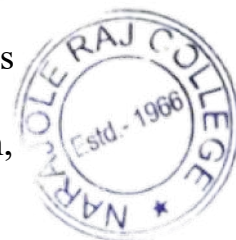

Plan of Work- On that day in college campus, most of the members of Green Club and Extension Services Sub-Committee with some students of Biological Science assembled in College Gate and reached in front of Narajole Raj Bari at around 11.30am. Dr. Arpita Chakraborty, Convenor of Green Club, Dr. Uttam Kumar Kanp, member of Green Club led from the front in this survey work.

Schedule of the programme- At first, we observed carefully the whole palace and adjoining areas, interaction was done with royal people and others about the growth of the trees in the cracks of the wall of old palace. After that all of us started the job by identifying the plants and enlist them carefully. It was enlisted all about 220 plants species present in the palace and adjoining areas. We finished our survey of that day at about 3pm, and returned our college campus.

Outcome of the Activity- After careful enlistment of the plants, the all surveyers i.e. teachers of NRC conveyed the traditional medicinal utilities of the plants, grown in the areas, to the residents of Palace and adjoining areas and also conveyed the primary knowledge about plant conservation, specially weeds.

Students'feedback- Students were very happy as they observed the event as a social work. They were enthusiastic asking about the different medicinal properties of plants to their teachers.

An Extempore Speech Competition based on Environmental Awareness in Narajole Mahendra Academy (H.S.) organized in collaboration with Extension Services Sub-Committee, NRC, held on 25.11.2022.

Rationale of the outdoor activity- An extempore speech always increases a student's ability to think rationally without any preparation in a specific time given by judges. In this present era Environmental pollution and their different derivatives is a Global issue. Each student should aware about them. In this context, being a village school student, how much awareness they have got, how much up-to-date they are, a sustainable competition is arranged among them.

Plan of Work- On that day, Dr. Nilanjana Bhattacharyya, Dr. Arpita Chakraborty of Narajole Raj College was led from the front in this activity. Prof. Asis Bhattacharya, Dr. Prithwi Ghosh, Prof. Tapas Rana, and 12 volunteers students of Narajole Raj College were present in the school. Competition was going on for one hour. 14 students enlisted their name as competitors to the judges on spot spontaneously.

Schedule of the programme- Competition was successfully completed by ranking one first candidates, two second candidates and one third candidates. The ranked candidates were rewarded by trophy and certificates issued by the concerned Institution. Different students selected different topics among the specified broad aspect. Most significant speech among them was on-

1. Chipko movement
2. Green House Effect
3. Rain Water Harvesting

The students from class IX to XII were attended the competition.

Outcome of the Activity- Apart from the attendants of the competition there were about 150 students from different classes (V- XII) present in the hall. They were spectators. Those who did not enroll their name initially in the competition, got inspiration from their friends and co-passengers. Juniors enriched by knowledge. All were memorised in the hall.

Students' feedback- Students were very happy as they observed the event as a social work. They were enthusiastic and interact with the different

Plenary Speech on 'Medicinal Value of Local Weeds' in Amarendra Lal Khan Balika Vidyalaya organized in collaboration with Extension Services Sub-Committee, NRC, held on 10.06.2023.

Rationale of the outdoor activity- Weed means unwanted plants in a selected place *viz.*, cultivated land/ garden/ on anywhere (such as, road sides, railway paths etc.). Although they are not planted carefully by human but they survive by Natural selection. As they have to face hurdles with cultivated plants to sustain their existence, they show more adaptive features than the cultivated ones. Moreover, modern research and ethnobotanical research invented their different medicinal properties and traditional uses respectively. Still, they ignored by most of the mankind.

Plan of Work- Thinking about the broad aspect of plant kingdom, the two different cells of Narajole Raj College, decided to take effort and focused on that issue. They selected the Girls' school for their area of operation. They thought, through students' different families and ultimately the society get this important message.

Schedule of the programme- Dr. Arpita Chakraborty, was the spokesperson in the activity. Dr. Rajasree Debnath, Prof. Bangamoti Hansda, Prof. Dipasree Roy and some students as volunteers attended the activity on that day. Dr. Chakraborty picked some plant twigs from the school campus and surrounding areas for better demonstration to students. She tried her level best to make them understood about the medicinal properties of the weeds along with their essentiality of conservation. The speech was continued for one hour.

Outcome of the Activity- As they may feel boring in a continuous lecture, the plants having the potentiality against different gynecological problems, gastrointestinal problems, cough and cold with fever which are very common among these age group students are selected. In other way, through the girls, their family members and others in society get acquainted about the most common health problems, its herbal remedies in this rural area. In this lecture, Dr. Chakraborty also mentioned the utility of plant conservation and its types.

Students' feedback- Students were very happy. They were enthusiastic and interact with the different teachers to enrich their knowledge and

A Drawing Competition on 'Nature's Scenic Beauty Through Supplied Sample' in Singaghai Primary School organized in collaboration with Extension Services Sub-Committee, NRC, held on 12.06.2023.

Rationale of the outdoor activity- To find out the extra-curricular skill among school children and imbibe Nature in them the two respective cells of college decided to organize a sustainable competition in Drawing in Singaghai Primary School.

Plan of Work- On that day, Sk.Ashiruddin Chisty of Narajole Raj College, also a skilled non-professional artist drew a simple picture of 'Nature's scenic beauty' and made multiple copies of colour xerox and distributed among students to draw the replica of it. The time duration was one hour.

Schedule of the programme- The competition was started at 11.30am. Sk. Ashiruddin Chisty, Dr. Arpita Chakraborty, Prof. Shilpa Patra and three students as volunteers were present in the school. The teaching staffs who were present in the programme were act as judge. 20 students from class I-IV participated in the competition sportingly. Drawing paper was supplied by the college and students brought their own colour pencil on that day.

Outcome of the Activity- All the students made picture efficiently. Almost all were praiseworthy. The students enjoyed the programme very much and it was a great opportunity for them to show their skills and get rid of boredom from their daily routine.

Students' feedback- Students were very happy. They were enthusiastic and interact with their friends about drawing. Our volunteers were instructed the kids to maintain the hall properly. They were very happy to spent time with children.

A Postering Programme on 'Different Environmental Movements of India in Harirajpur Primary School by the students of Narajole Raj College' organized in collaboration with Extension Services Sub-Committee, NRC, held on 16.06.2023.

Rationale of the outdoor activity- Due to shortage of Environmental Awareness among peoples specially in countries like us, different Environmental Movements raised by different Environmental Activists in our country. To maintain Nature's originality, every one should be a sustainable user and sustainable developer of Natural Resources. In this context, the kids should be learned from beginning about Nature and its different issues.

Plan of Work- On that day, Dr. Arpita Chakraborty along with Prof. Baisali Guha, Sk. Ashiruddin Chisty and 12 students acted as volunteers were present in the school. Postering was started at 12.30pm in different areas of school wall.

Schedule of the programme- Dr. Chakraborty described lucidly, as fit for kids, about Nature, different Environmental movements of India, the leading personality of each movement and the final result of the movements. Sk. Ashiruddin Chisty said about the different conservation methods of natural resources. Prof. Baisali Guha gave a lucid speech among students how the Natural Resources reduces with the advancement of civilization from pre-historic time to present era. After the completion of lectures of three teachers, students of NRC, started their postering work in different places of school.

Outcome of the Activity- From our activity, students became enthusiastic about sustainable uses of Nature, its conservation methods and policies. In the era of Global Warming the activity is most appropriate. Seeing the different posters they got knowledge to make such different extra-curricular activities.

Students' feedback- Students were very happy. They were enthusiastic and interact with their friends about postering. Our volunteers were instructed the kids to maintain the hall properly. They were very happy to spent time with childrens.
